IT10 System Plans

IT10 ORC Plans • System Blueprints (combine with turbine generator)

The plans include images of each component in (jpg/png) and .pdf views.

The machine ready files include dwg, dxf, xt and we can provide other files on request from our AutoDesk suite of Cad/Cam software. The files are provided by a FTP download. The license is for the system blueprints only, and does not include any support (optional).

IT10 Revenue based on gross sales or grid savings, not including cost of acquiring waste heat flow or pumps.

Revenue from IT10 (24 hours x 365 days per year x 10 kWh = 87,600 kWh per year):

- at \$.20 per kWh = \$17,520 USD per year
- at \$.40 per kWh = \$35,040 USD per year
- at \$.80 per kWh = \$70,080 USD per year
