

Infinity Turbine Fast Vacuum Table

Fast Vacuum Table

Modular Vacuum Bag and Seal

Vacuum bag and seal large bags, or bagged assemblies in a few seconds to minutes.

Wide Mouth Vacuum

Vacuum bag and seal, or connect up to 4 tubes for your vacuum bag operation.

Portable and Modular Fast Vacuum Bagging System - Plug and Play - Single Phase 110 V 50/60hz If you need a way to fast vacuum seal bags, vacuum bag epoxy/resin projects, or glue-lam assemblies.

With a on-board hefty 2HP dual cylinder vacuum pump, with tube manifolds, and wide mount tabletop sealer. This system can quickly vacuum and seal most of your larger projects. Mounted on a self-contained cart, the system is plug-and-play right out of the crate and ready for operation.

Originally designed for vacuum bagging botanical harvests, the system is also perfect for vacuum bagging carbon fiber and epoxy projects.

Fast Vacuum Table System – All Inclusive Package

4x4ft 2HP
Vacuum Bag System
\$12,999

Powerful 2 HP Dual Pump

Dual cylinder on-board vacuum pump. Off-the-shelf parts means quick fix and maintenance.

Resin Bucket

Stainless steel resin bucket.

PRODUCT

Industrial Package comes in a standard 2x4 ft cart, with 2x4 ft flip-up table on 5 inch industrial casters, which fits through any standard doorway, hallway, or elevator.

Wide Mouth 24 inch vacuum table top includes bag heat sealer.

Manifold has four 1/2 inch ID tube Connectors.

Pre Charge On-Board 11 gallon air tank for fast vacuum.

Plug-and-Play system arrives in custom wooden crate, all built in the USA, and includes freight and insurance to lower 48.

PROFIT

Speed Clamp projects in a fraction of the time compared to mechanical clamping methods.

Provides Vacuum Central Command for your epoxy resin projects, both big and small.

Combine Multiple Vacuum bagged projects using one system, at the same time.

Vacuum Clamping may be a faster solution than using hundreds, or thousands of fasteners to hold parts together.

Reduces Clutter and Space by providing a cart mounted solution.

TIME

Saves Time by providing a mobile cart for both small vacuum bag sealing, as well as a ported manifold for your larger vacuum bag needs, such as yacht hulls, aircraft wings, or larger assemblies.

Resin Collection Vessel Liquid Trap to collect your resin.

Organizes your vacuum bagging operation into one convenience roll-about cart.

Fast Clamping methodology for large wood or resin tables or other structures. Instead of lots of mechanical clamps, use a vacuum instead.
